We ended our last outreach to Delft, on Saturday morning 4 December with a day at Zoe Academy of Skills. Nick Rust from Neulux provided the soft & tender steak (500+ pieces), Allen at the Interscape workshop made the braais, as well as delivered all the goodies (ice cream lollies from Frozen Fairy, apples from Riel Malan's Unlimited Fruits, and our jumping castle) to Delft on Friday.

On Saturday morning at 09h00 all teams met at Zoe Academy, where we divided into sections for children, food preparation, ministry & praying for the sick, serving food, and manicures for the seniors.

At 10h00 the Maties band under leadership of Nicholas Rust, started the day with gospel & groovy sounds. The teams took their places, our kitchen team started with 'stywe pap, slap pap, krummel pap', peeling veggies and the braai fires were already burning high. The soccer teams from Blikkiesdorp were dressed and ready to score.

The ministry teams went into the streets to invite the seniors for manicures, prayed in the homes of many and soon with Radio 104fm broadcasting the event, many children and parents were flocking to this event.

In the end all (children, parents & teams) were fed generous portions of potjiekos, steak, pap, fruit, ice cream lollies, ministered to, entertained with music, soccer and jumping castles.

We want to thank our partners: Neulux, Nicholas Rust's band, Unlimited Fruits, Frozen Fairy and Radio 104fm for your contribution to this wonderful day, as well as our teams for your continued hard work and commitment to the Kingdom's advancement in Delft.
